TREASURY TO AUCTION \$10,000 MILLION OF 2-YEAR NOTES

The Treasury will auction \$10,000 million of 2-year notes to refund \$28,398 million of publicly held securities maturing January 31, 2001, and to pay down about \$18,398 million.

In addition to the public holdings, Federal Reserve Banks hold \$4,195 million of the maturing securities for their own accounts, which may be refunded by issuing an additional amount of the new security.

The maturing securities held by the public include \$6,633 million held by Federal Reserve Banks as agents for foreign and international monetary authorities. Amounts bid for these accounts by Federal Reserve Banks will be added to the offering.

TreasuryDirect customers requested that we reinvest their maturing holdings of approximately \$600 million into the 2-year note.

The auction will be conducted in the single-price auction format. All competitive and noncompetitive awards will be at the highest yield of accepted competitive tenders.

The notes being offered today are eligible for the STRIPS program.

This offering of Treasury securities is governed by the terms and conditions set forth in the Uniform Offering Circular for the Sale and Issue of Marketable Book-Entry Treasury Bills, Notes, and Bonds (31 CFR Part 356, as amended).

Details about the new security are given in the attached offering highlights.
